

Results:

1. Introspection on the concept of personal accountability and its function in personal and professional roles.
2. Personal detection of barriers that keep the team from having 100% personal accountability. Create an action culture.
3. Needs detection to work inside the HR department and improve the actual work environment, performance evaluations, and training and engagement strategies.
4. Specific suggestions of improvement to work inside the corresponding area, along with the HR department, based on the results obtained from each team.

Includes:

- + 2 hour workshops for groups of 10 people.
- + Electronic copies of the presentation materials and work manual (Printed copies not included).
- + Record of all suggestions of improvement for the HR department (based on the results).
